Subject: Yankton No. 1

Chuck Baker thinks that there might be a reference at the School of Mines Library that might list town gas sites from the turn of the century. Chuck has volunteered to go out to the School of Mines Library and do a little research during the next few days to see if he can find an address for the Yankton No., 1 site for the years 1904-1907.

We will let you know if he finds anything.
